

The Wonderful World of Weaving

I have designed a little, loom kit.

I use it to teach people to weave their own fabrics.

It is portable and only takes two hours to learn to use it.

Create your own fabrics using the whole or part of the loom.

If you live in the Tyne and Wear region, you could organise a Keep the Kit for a couple of you or a Weaving Class for your group.

I look forward to meeting you soon.

Booking is Essential
